CAUTION

Trapping Hazard

DO NOT put your hands between the supporting bars when rising and lowering the L-E-VATE to avoid a trapping hazard

CAUTION

Please make sure all equipment is positioned on the L-E-VATE worktop and not overhanging the edge.

CAUTION

When using the cable ties please make sure that you leave enough cable available for the L-E-VATE rising movement.

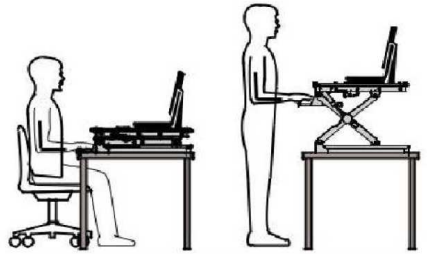
CAUTION

If relocating your L-E-VATE, remove all your devices then use 2 people, this will prevent damage to your L-E-VATE and risk of injury due to the weight.

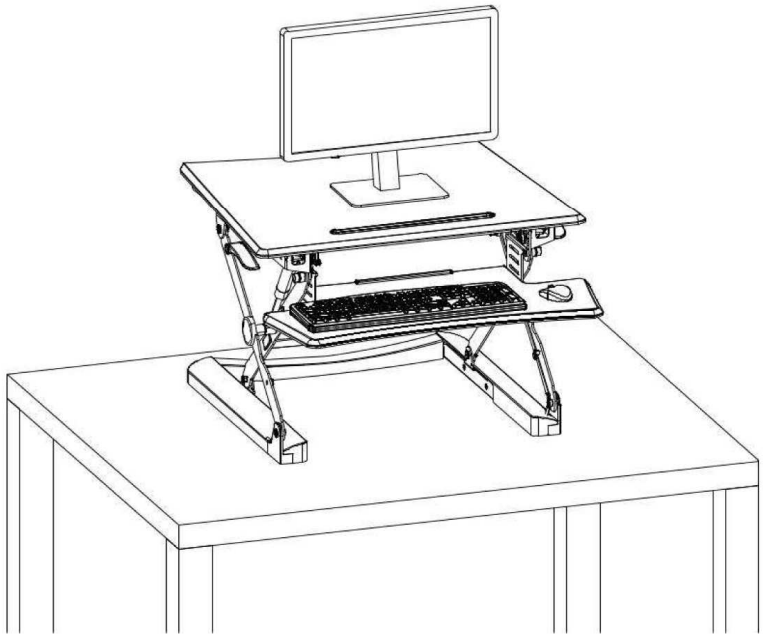
CAUTION

Please retain this manual for future reference.
The specifications of this product may vary slightly from the illustrations provided, which can be subject to change without notice.

L-E-VATE



INSTALLATION & USER GUIDE

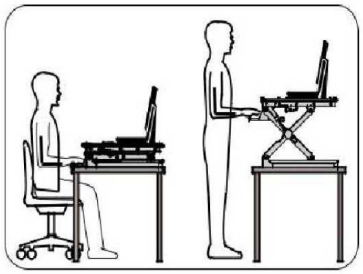


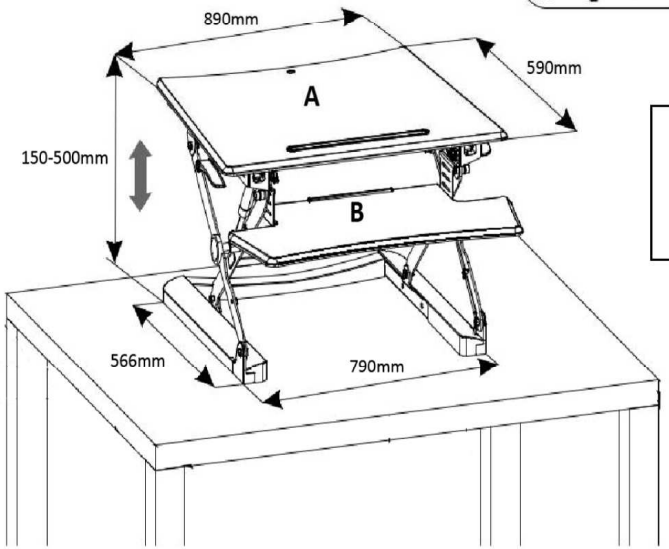
Model: L-E-VATE - M

Technical Information

WARNING

Please do not exceed the maximum bearing weight

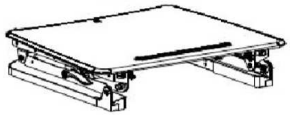


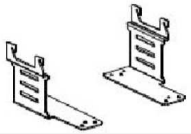


A: 3-15kg
B: 2kg
A+B=3-15kg

Contents List

A = L-E-VATE System
B = Keyboard Shelf
C = 2 x Keyboard Shelf Brackets
D = 2 x End Caps
E = 8 x Screws
F = Cable Ties
G = L-Shaped Screwdriver

A x 1	B x 1	C x 2
		


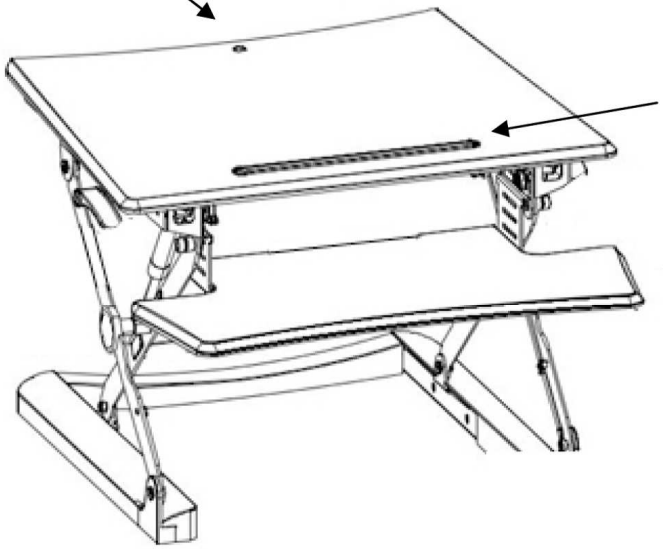


D x 2	E x 8	F x 1	G x 1

Optional Step 5 – Using a monitor arm with your L-E-VATE System

If using a desk clamp monitor arm then you can clamp it to the back of the worktop.

If you are using a bolt-through monitor arm then please remove the plug to reveal a 10mm hole to allow a bolt-though monitor arm to be fitted



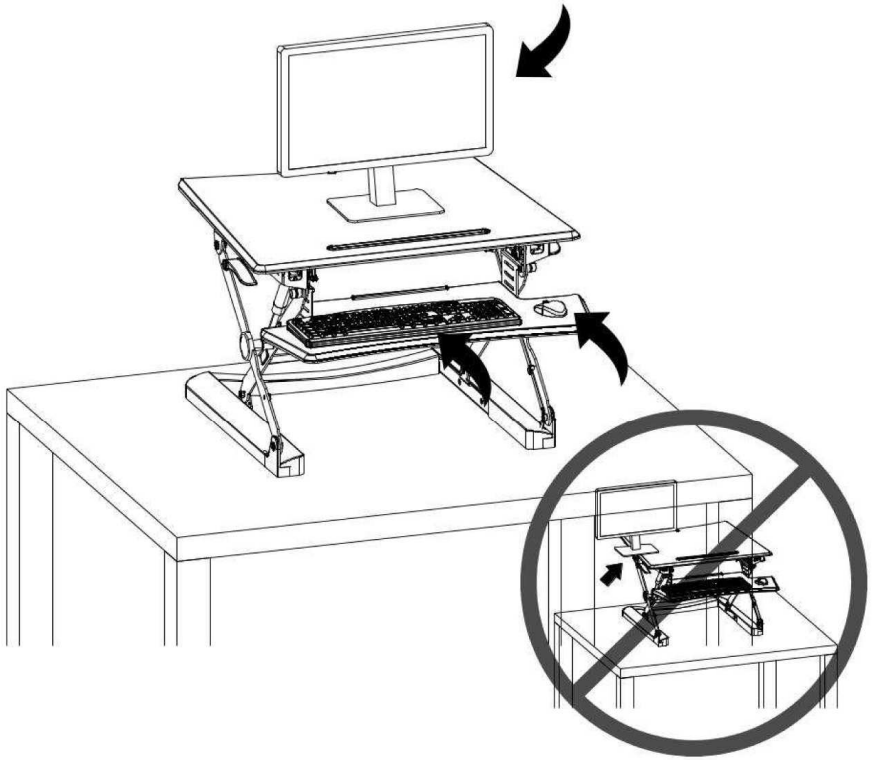
Step 6

Use the adhesive cable ties as required making sure that you leave enough cable available for the L-E-VATE rising movement.

Your new L-E-VATE is now ready to us

STEP 4

Put your monitor/laptop onto the top of the workstation.
Then use the handles to adjust to your required height.

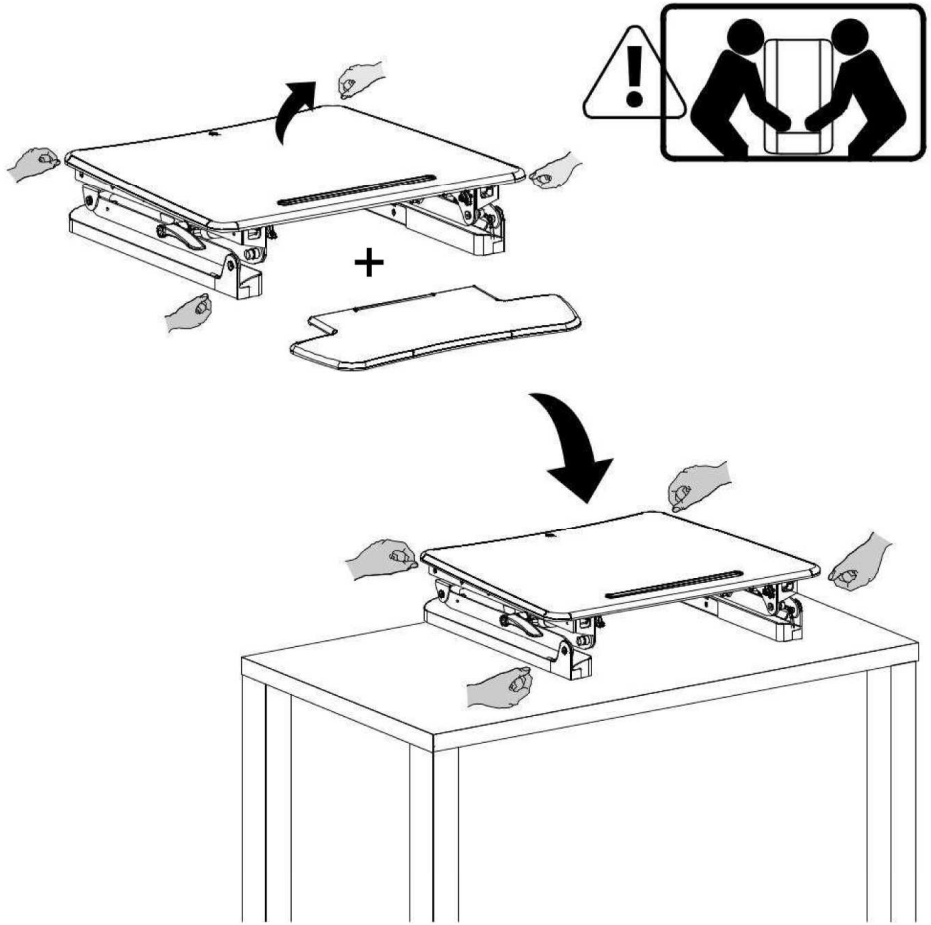


CAUTION

Please make sure all equipment is positioned on the L-E-VATE worktop and not overhanging the edge.

STEP 1

Remove your new L-E-VATE system from the box and place on your desk

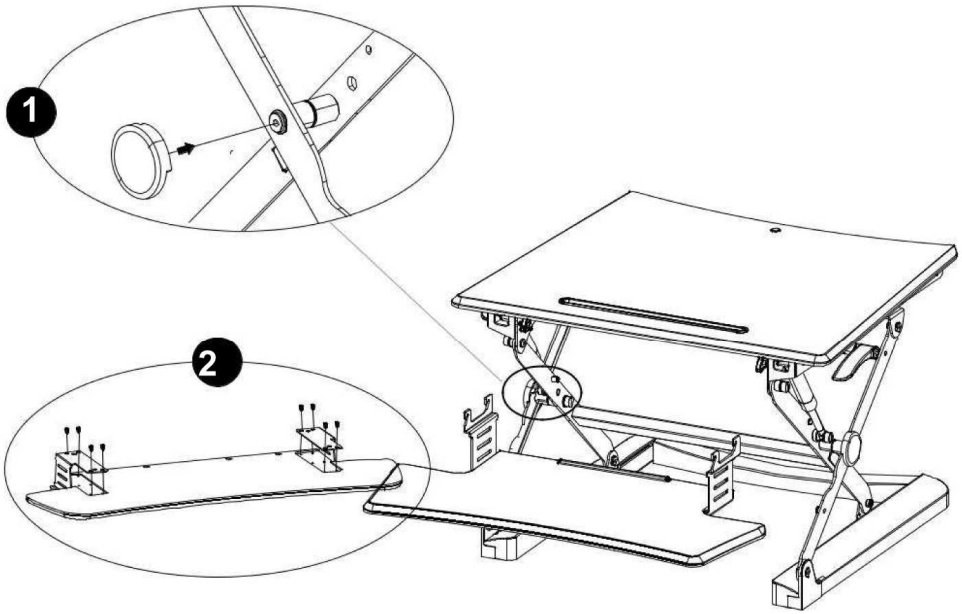


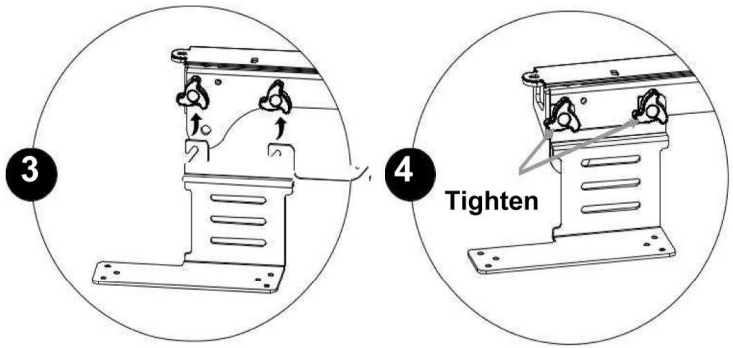
CAUTION

Please place the product securely on your desk to avoid injury or damage.

STEP 2

1: Attach the End Caps (D).
2: Screw the Keyboard Shelf Brackets (C) using the 8 Screws (E) to the Keyboard Shelf (B) using the L-Shaped Screwdriver (G).
3: Hook the Keyboard Shelf into place.
4: Tighten the thumb screws to secure the keyboard shelf in place.

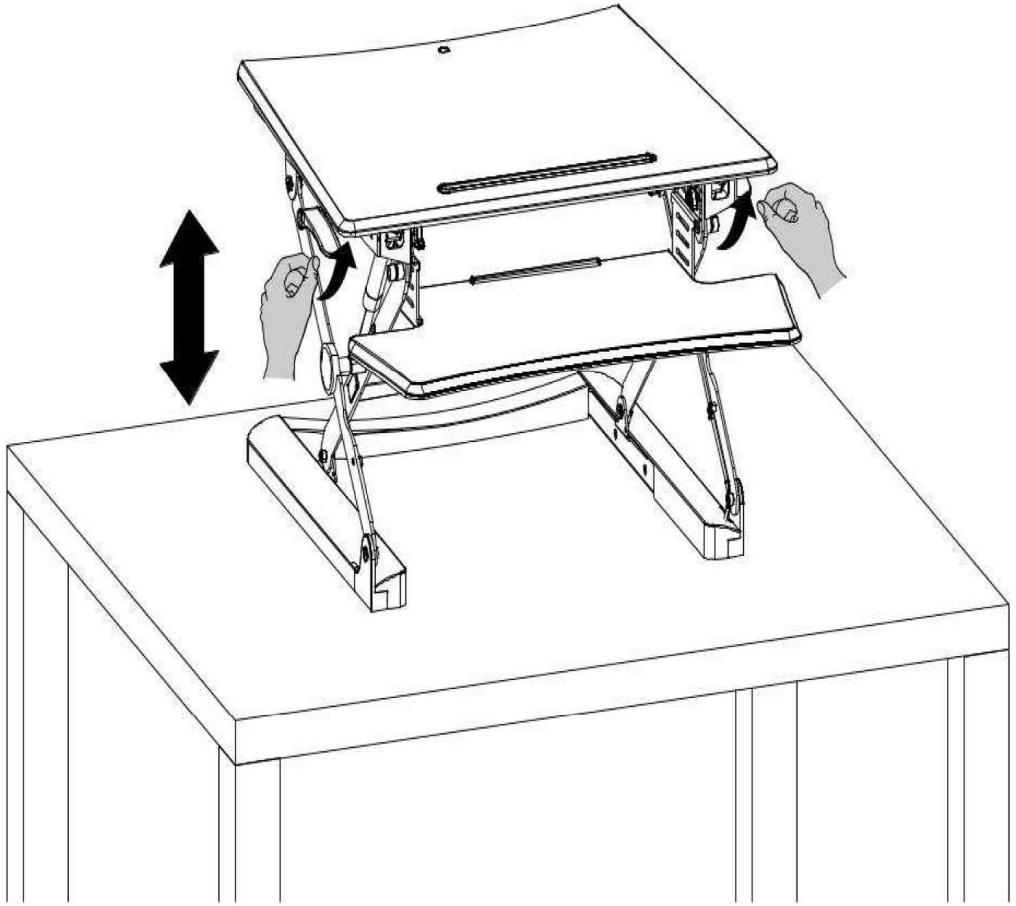




STEP 3

Grip both handles simultaneously to familiarise yourself with the up/down movement of the L-E-VATE System.

The L-E-VATE has 15 different height adjustment settings 150, 220, 260, 290, 320, 350, 370, 390, 410, 430, 450, 470, 480, 490 and 500mm.



WARNING

DO NOT put your hands between the supporting bars when rising and lowering the L-E-VATE to avoid a trapping hazard
